Dear Prospective Customer:

O.C. VACUUM, INC. is actively concerned with its environment. We make this concern a reality by meeting every environmental need that is presented to us. To do this efficiently, we work as one cohesive organization that can coordinate all aspects of environmental compliance for our customers as one full service organization. With a company such as ours, customers, buyers, procurement departments, and government contractors do not have to put together a package of various organizations to fulfill a complex job from beginning to end. Our customers have the confidence of knowing that each job is done with strict environmental compliance guidelines and costly errors in miscommunication have been prevented.

As founder, I have worked in the environmental field for over 30 years. I feel that I have the necessary experience combined with the latest advances in this dynamic industry and a personal concern for the environment that makes O.C. VACUUM, INC. ENVIRONMENTAL SERVICES a top performer.

We offer efficient service, labor, and equipment, which in turns translate into cost savings for our customers. We have developed an excellent rapport with a large number of landfills and treatment facilities throughout the country. We offer a staff of well-trained professionals who not only understand the industry requirements, but can transform this knowledge into a cost efficient environmental program designed specifically for each customer.

Different waste streams require different processes and procedures, from recycling to treatment and disposal. In order to provide our customers with a variety of options and maximum flexibility in this crucial area, we have developed working relationships with companies who specialize in those areas. This means that whether the problem is large or small, we are prepared to help with all your environmental needs.

Since our inception in 1973, we have followed a single philosophy that we need to work towards a *cleaner environment for a healthier tomorrow*. With proper planning and the right people, environmental problems need not occur, and ones that do exist can be solved. We have the expertise and the personnel to provide a full range of environmental services from audits to spill control and clean up. Once you get to know us and the services that we offer, I am sure that you will agree with our philosophy of working towards a *cleaner environment for a healthier tomorrow*.

Sincerely,

Oscar G. Carrasco
President & CEO

Mission Statement

At O.C. Vacuum we are committed to superior environmental service to our customers. Superior means that we utilize our extensive team experience and networking capabilities to perform the transportation of hazardous and non-hazardous materials and other environmental solutions.

Through our services, we work to improve human life and to protect balance for the benefit of future generations to come.

Transportation

In 1973, **O.C. VACUUM, INC.** began as a full service company by offering transportation of hazardous and non-hazardous materials as its main product. Even though the company has expanded to offer many other services to fulfill the environmental needs of today, its roots lie in giving customers superior service in waste transportation.

Figure 1. Sideway view of Vacuum trucks at home base in Long Beach, CA.

O.C. Vacuum, Inc. has an impeccable record in the industry for completing jobs with strict attention to detail. Every precaution is taken to ensure that operations run smoothly and to prevent problems before they occur.

Materials Transported

We specialize in transporting all hazardous and non-hazardous materials. The following is a partial list of items that we transport:

| | |
|---------------------|----------------------------|
| Bulk liquids | Sludge |
| Solids | Drums |
| Lab packs | Equipment |
| Tanks | Contaminated -soils |

Truck Inventory

O.C. Vacuum is capable in handling any transportation needs with the following trucks:

- **Stainless steel vacuum trucks**
- **(120 bbl)**
- **Mild steel vacuum trucks-**
- **(70 bbl, 100 bbl & 120 bbl)**
- **Gear trucks**
- **Vans (45 foot)**
- **End dumps**
- **Drop deck steak beds (50 foot)**
- **Roll-off Trucks**

Service Capabilities

We are concentrated in offering dependable service in the waste management and remediation sector. As a result we have expanded our traditional services to include other important items to complement our transportation segment.

Services

The services sector of O.C. Vacuum, Inc. responds to a variety of waste management and remediation concerns. The following is partial list of services provided:

- **Hazardous Waste Treatment & Disposal**
- **Site Remediation & Facility Closures**

Figure 2. Featured is one of our Roll-off trucks and some of our bin inventory.

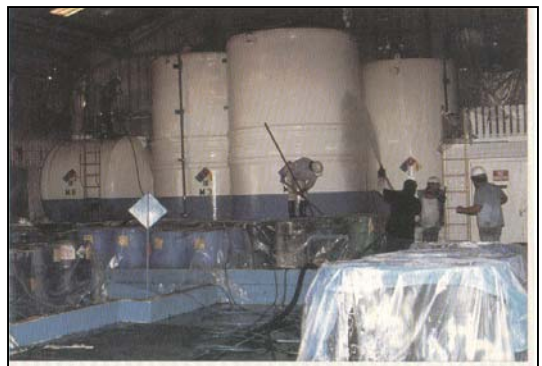

Figure 3. Tanks can be steam-cleaned, pressure washed or mechanically cleaned to customer's specifications. State of the art equipment is used to clean tanks from 200 to tanks in excess of 100,000 gallons.

Hazardous Waste Treatment and Disposal

O.C. VACUUM, INC. utilizes a number of off-site treatment and disposal facilities for management of your waste. All sites are audited to insure complete compliance of all applicable state and federal laws.

We have good relationships with these sites and also provide them with transportation services. We offer an assortment of sources for your waste, which in turn provides our customers with savings. Profiling of waste and manifesting are also provided.

Emergency Spill Response

24-hour on-call technicians are available to handle the full range of hazardous material spills including containment, substance identification, clean up, and transportation for disposal.

Figure 4. Hazardous Materials Technicians are responding to a site clean up in Vernon, CA.

Site Remediation & Facility Closures

O.C. Vacuum performs the following environmental services for site remediation and facility closures:

- **Remedial Action Plan Engineering & Project Management**
- **Plant Decontamination**
- **Demolition of Process Plants, Plants, Plating Shops, Pipelines and Buildings**
- **Soil Excavation and Disposal**
- **Closures Plans and Report**

Company Qualifications

We believe that safety and good service go hand in hand, which is why are employees are enrolled in the [Employer Pull Notice Program and the BIT Program](#).

[Employee Pull Notice Program \(EPN\)](#)

The EPN program allows us to monitor Driver's License records of our employees who drive on O.C. Vacuum's behalf. This monitoring accomplishes the following:

- Improves public safety.
- Determines if each driver has a valid Driver's License.
- Reveals problem drivers or driving behavior.
- Helps to minimize our liability

[Biennial Inspection of Terminals](#)

[\(BIT\) Program](#) California Vehicle Code requires any person or organization directing the

operation of certain trucks or trailers to participate in an inspection program conducted by the CHP. The law requires the CHP to inspect California truck terminals every two years. This law is known as BIT program, and the inspections conducted by the CHP are commonly called "BIT inspections." O.C. Vacuum has passed successfully for the past 20 years for every BIT inspection conducted on trucks and trailers.

[HAZWOPER Standard](#)

O.C. Vacuum is in full compliance with Occupational Safety & Health Administration (OSHA) regulations. All of our hazardous materials technicians take the standard [Hazardous Waste Operations and Emergency Response Standard \(HAZWOPER\)](#) and also are trained with an annual 8-hour refresher course to keep up with current changes in environmental regulations.

Key Personnel

Oscar Carrasco-President/CEO

Mr. Oscar Carrasco oversees all internal and external business activities at O.C. Vacuum. He has over 40 years of experience in all of the facets of hazardous materials including training and supervision of supervisors, knowledge of chemical categorization, and managing emergency response situations. His combination of experience and leadership had led to superior team performance in every job completed. (Look to Addendum A for resume)

David Carrasco-General Manager

Mr. David Carrasco has worked at O.C. Vacuum since 1991. He has over

20 years of experience in hazardous materials and wastes. He utilizes his astute managerial skills from A&R Company and United Pumping to administer an efficient team at O.C. Vacuum. Through his experience in past positions he possesses incisive managerial talents that have made O.C. Vacuum the stable and strong company that it is today. Mr. David Carrasco also has his certification as a contractor for customer contract specifications. His environmental business background has given him the necessary training to handle any type of emergency with confidence. (Look to Addendum A for resume)
